

# *TinyTampino* desktop tamper-evidence

Tamper-evident labels semi-automatically applied to pharmaceutical cartons

The Travtec TinyTampino desktop unit is designed as an off-line system for semi-automatically applying permanent tamper-evident labels to the closure of cartons.

It is quick, easy and safe to operate, with the active movement being totally under operator control.

Minimum capital outlay. High quality applicator for consistent label placement.

Maintenance-free design with robust construction.
